Now, now Let's write something on the note.
President of 5-3 and her class barely cleaned the zone and abused the checkers
Nice!
Also a boy rogging in girl's toilet
Haha
Hey coward! It's you! Turn around!

I know your crappy class well. I heard many interesting things from the council tutor.

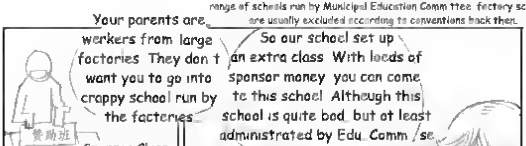
T/N: When Xueziliu is referred to as the "worst" that's within the range of schools run by Municipal Education Committee. Factory schools are usually excluded according to conventions back then.



Your parents are workers from large factories. They don't want you to go into crappy school run by the factories.

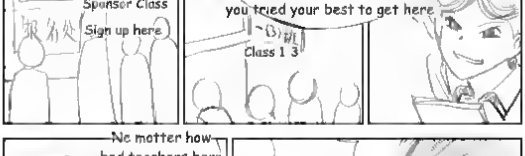
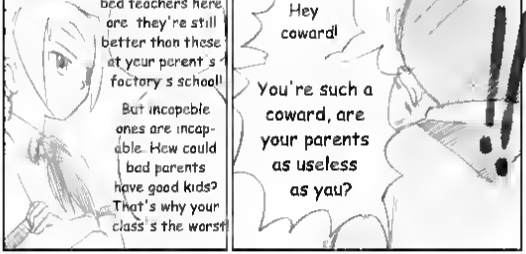
So our school set up an extra class. With loads of sponsor money you can come to this school. Although this school is quite bad, but at least administrated by Edu. Comm., so you tried your best to get here.
Class 1 3



No matter how bad teachers here are, they're still better than those at your parent's factory's school!
But incapable ones are incapable. How could bad parents have good kids? That's why your class's the worst!
Hey coward!
You're such a coward, are your parents as useless as you?



5 years ago
Come, kid.
Have some candies! I brought them from Shanghai!
Ming-ming! Don't be impolite!
Oh, just let him eat!
Thanks uncle!
Haha, what a good kid.
Mr Wang, the school at my factory is too bad, please help our kid. I heard there're many applicants for that class...
Um. I know the kid's conditions. But with such a fiece competition, I can not guarantee. ...I'll try my best to help, rest assured.

Let's say goodbye now, hope the kid goes to a good school...
Goodbye uncle!
Good kid!
Ming-ming, go downstairs first and wait for us.
OK!
Please take this, sir.
Alas, what's ...
But...
We're grateful you promised to help, it's a token of our regard.
Yes, please accept
?
Please accept sir, it's no big deal...
Look, what're you talking

Yeah please accept

Eh? Isn't that...
You go first, I'll say hi to that uncle. He's very nice to me!
OK!
Heck, I almost break my legs just for that stupid sponsor class.
?

What's good about that class, just a bunch of bad students together.
Even so, those idiot parents tried their best to send kids in.
Like last time... a young couple come to my home with their son and gave me only two cartons of cigarettes and this number... That brat...ate a lot of candies I bought in Shanghai for my son...
Useless parents have useless kids!
It's their fault for being useless and work in such shabby factories Well I have a kind heart so I let that brat in.
Help the working class haha!
